PROFILE INFO

Enthusiastic Software Engineering student in the 6th semester with hands-on experience in full-stack web development using JavaScript, Node.js, Express, HTML, CSS, and basic React. Completed the 100 Days of LeetCode 2025 challenge, strengthening problem-solving skills. Gained real-world experience through a WWF internship, and seeking an internship to further apply technical and teamwork skills in real projects.

EDUCATION

2023-2027

NATIONAL UNIVERSITY OF SCIENCES
AND TECHNOLOGY (NUST)

- BE Software Engineering

2020-2022

MTB COLLEGE, KHALID CAMPUS

- Intermediate (Pre-Engineering)

2018-2020

ENGRO MODEL SCHOOL, DAHARKI

- Matriculation

SKILLS

- JavaScript, C++
- HTML, CSS, React (Basics)
- Node.js, Express
- MySQL, PostgreSQL
- Git, GitHub
- Ms Office
- Problem Solving
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Confidence

ACHIEVEMENTS

- 100 days LeetCode Challenge Badge
- Volunteer at Open House 2025
- Internship -WOH Virtual Youth Leadership Program 2025

PROJECTS

My Portfolio Website

React.js, Tailwind CSS, Vite, GSAP, Framer Motion

- Designed and developed a modern, responsive portfolio website to showcase projects, technical skills, and achievements. Implemented smooth animations, scroll-triggered interactions, and a dark-themed UI.

AIRYZE - intelligent aqi monitoring.

React, Node.js, Express, Online APIs, PostgreSQL

- Real-time air quality app with interactive maps, historical data, pollutant insights, and health-based alerts on Gmail.
- Developed as semester project of software construction course in 5th Semester

Farm Data Management System

HTML, CSS, Node.js, Express, MySQL

- A role-based farm data collection and management system designed to streamline agricultural record-keeping and analytics.
- Developed as an internship project, this system allows administrators and field facilitators to manage farmers, crops, livestock, land usage, and farming activities efficiently.

Movie Searching Website

HTML, CSS, Node.js, Express, MySQL

- Provides users a platform to search for and explore detailed movie info like release year, genre, rating, and cast. It offers robust search filters, rating distribution visualizations, and a responsive design for seamless access.

EXPERIENCE

World Wild Fund for Nature (WWF)

7 July 25 - 31 Aug 2025

Technical Internship - Food & Agriculture Sector

- Developed a full-stack web system to manage cotton farm data using JavaScript, Node.js, and MySQL.
- Collected, organized, and analyzed agricultural data to support sustainable farming practices.
- Collaborated with the field and technical teams to improve data accuracy and reporting efficiency.
